It is the Clearly Beautiful Way to Straighten Your Teeth

You Are Never Too Old for Invisalign!

Despite our lousy economy, the most common request I still get from new patients is, "I would like my teeth whiter and straighter". Some people want straighter teeth because it obviously looks great; while others want straight teeth to improve their bite. With a healthy bite, most people will tend to grind their teeth less, preventing wear and tear on their enamel. They also have better periodontal health due to less inflammation of their gums. Many adults, just like you, who have felt uncomfortable with their smiles now have straight, healthy teeth. If you were not able to get your teeth straightened when you were younger, or if you did, and your teeth have crowded again, now is the time to find out more about invisalign.

Treatment with Invisalign is quick and easy. With Invisalign, you do not wear metal braces. Instead, your teeth are straightened by wearing a series of clear plastic aligners. The aligners are so inconspicuous that most will not be able to tell you are wearing them. You will wear each set of clear aligners for about two weeks at a time. The aligners are worn all the time, except when you are eating, brushing and flossing. Because the aligners are removable, you can eat all of your favorite foods without them getting them stuck all around your teeth!

Everyone's treatment time is different, but on average most of our cases take about one year. The cost of treatment is similar in cost to traditional braces. In addition, if you have orthodontic coverage, Invisalign is often covered to the same extent as traditional braces. We also offer a variety of financing plans to make investing in your smile easier to do. Be one of our many patients who are enjoying their new beautiful smiles. Call us today!!!
